ISOE International Symposium
Beijing, China, October 22-24, 2019

The IAEA Technical Centre of the Information System on Occupational Exposure (ISOE), in collaboration with the Nuclear and Radiation Safety Centre, Ministry of Ecology and Environment of China is organizing the 2019 ISOE International Symposium on Occupational Exposure Management at Nuclear Facilities.

The Symposium will be held in Beijing, China from 22 to 24 October 2019. The Symposium will be co-sponsored by the International Atomic Energy Agency (IAEA), the OECD Nuclear Energy Agency (NEA) and supported by the Chinese Society of Radiation Protection; the Radiation Monitoring Centre of China General Nuclear Power Corporation and the Beijing Society of Radiation Safety.

The Symposium is targeted at all those concerned with radiation protection at nuclear facilities, from utilities, contractors, regulatory bodies as well as international organizations.

The main objectives of the Symposium are:

- to provide a large forum of information exchange on occupational exposure concerns in nuclear power plants (practices, management and procedures, dose results and reduction, improvements of techniques and tools, etc.),
- to provide an opportunity to transfer the knowledge and experiences on occupational radiation protection accumulated in the ISOE system to newcomers and embarking countries of NPP.
- to allow vendors to present their recent experience and developments in radiation protection (measurement techniques, operating and plant design improvements, ALARA practices during operation and outages, etc.) in a commercial exhibition.

The Symposium will provide an opportunity for the participants to participate in discussions during plenary sessions and presentations of posters.

A technical visit will be organized on the last day of the Symposium.

We are looking forward to welcoming you in Beijing.

Jizeng MA

*Head of ISOE IAEA Technical Centre
